I like to load an apc up with 2 rocket launcher officers.Backing up the APC and 2 RLO's is a mammoth tank(needless to say this is a GDI rush.).Bring an artillery,1 or 2 engineers,and you're set.You can also bring a SBH if you wanna be sneaky.

while massing works, mixing is good. like nod; arts for long range coverfire, like tanks for cloes armor, stanks for an added suprise and a flame for constant damage; along with infantry suport is deadly

No. I put a txt file in the data folder and host the game. So that when u buy a vehicle, a

stealth-flame tank drops down. And there will be no limit.
