lol.

Is it located in hud.ini? I don't know if you can change it without modifying shaders.dll. I could be wrong though.

Yes, you can...

```
CreditsEnabled=true  
CreditsVisible=true  
CreditsXPos=-339  
CreditsYPos=-61  
CreditsFont=font18x24bankgothsm1.tga  
CreditsColor=1
```

```
TimeEnabled=true  
TimeVisible=true  
TimeXPos=-339  
TimeYPos=-45  
TimeFont=font18x24bankgothsm1.tga  
TimeColor=1
```

1 = White
10 = Blue
13 = Green

just got to figure out colors with the numbers

I am not sure if you were asking about this or stock timer + money if stock then no you must edit it in shaders.dll but if side counters then that is it.

Why do you write "whit" when that is a completely different word than "with"?
