I'm looking for people to help me test some of my plugins, what i'm focused on now is:

- detecting scope cheats
- detecting cheats that make the hitbox larger than normal
- ammo cheats
- velocity cheats

there's also some other stuff i'm working on like the a modified spectate plugin (almost finished) and custom weapon spawns.

Do you have IRC? Could you get on #ttserv on n00bstories irc? I'm looking for an US guy atm, all you need to do is fight me with a few guns while we're both evading and with me using big bodies.

Got dinner in a bit but unless my brother's car stops working again I should be available the next few hours.
