i went by the steps shown in this thread---->

<http://www.renegadeforums.com/index.php?t=msg&th=24533&start=0&rid=25372> but i am stuck at step 7, it says to install scripts3 but scripts4 Beta is out now so do i install scripts4 or the scripts3?

Download and install: <http://www.tiberiantechologies.org/files/tt-scripts-4.0beta4.exe>

That should be all, you can also use RenList as a server browser so you don't have to go in-game/use XWIS/GameSpy to play.
