euhm, you have to be A BIT more specific. Otherwise I would just recommend you to kill all opponents and destroy their base. Keep in mind not to be run over by the harvester (that's the great vacuum cleaner sliding over the map).

Just try to make your site different, have it stand out.Include lots of information, about the game, I've found that people like reading some tactics, strategies, different characters, vehicles, etc.Also - Include lots of Generals stuff, anything that people don't know about, is a "goldmine".

quote: You need a page that gives points for certain things destroyed or ppl killed. Example: Boss Character = 99 Points
Ramjet Rifle To a Med = 10 Points
Ramjet Rifle To a Mammy = 12 Points
Nuke/lon a building = 750 Points etc..... That would be kinda interesting actually, sorta useful information..
