Hey all! I need help!!!!!!! can't seem to find all the missile racks or destroy them. I'm following the map of the ship with the green stars, and i can't seem to destroy the missile racks. Only have 2 objectives left in this part of the game, protecting the prisoners at the sub and destroy the missile racks. I already fixed them earlier I thought.. Can any one help me!

I fixed one room with four racks of missiles then went to another room with another two sets of missiles, and when I approach them, the cross-out sign shows with full strength green lights, but I'm not sure what that means.. There only two green stars left on my map, one towards the bow of the ship, and in the middle of the ship were the prisoners are. So I don't know what I'm missing.

By your list, I have 6 and 7 left to do. I've got the 3 prisoners by the sub waiting for me to do something, but I dunno what.

Torp rack is under the bridge or at the bottom of the stair wall in the yellow zone.

Well after two weeks of playing in mission 4 Stowaway I finally got the torpedo racks to disarm. I had to get real close to the rack on the left hand side and press the E key. Ugh! I did that several times before and it didn't work, and now it did. ERRR!. Now, I'm in Mission 5 Deadeye. Trying to rescue the team, but this is hard to do even if you're playing in easy mode. Wish me luck!
