This must have plugin adds vehicle shells for Harvesters after they're destroyed, when fully repaired these shells will spawn a Harvester with 4 passenger seats and a machine gun.

If you're adding or changing vehicle weapons via a library, then consider adding vehicle drops. I worked on something similar some time ago as a bit of fun/concept, but believe there could be something in it...

MaxArmorIncrease/Speed/regen/weapons/range/damage/Armor/Health/Stealth

Just food for thought.

Neh i just create an APC and set its model to that of a Harvester, I've already checked everything you publicly released for Renegade.

I would also make the "harvester" as slow as one, but with the armor as one. Maybe with a Tib Flechette gun instead of a machine gun.

Vehicle drops!
The community demands it!
