if you ever see a guy with the nick 'ReLaX' AKA 'ReLoaDeD' on your server watch out, he's a glitch abuser who likes to glitch snipe even after being banned for it before, if you ban him he'll try to evade it 'mandai style'

he's been doing it for quite some time now, the first time he got banned for it was in late 2010 after i showed a mod after which he decided to start doing it randomly, taking only 1-2 shots before coming up to cover it up

first ban:

second ban:

What the hell is this invis and wall hugging I keep hearing about?  
I saw inthe videos that couldn't even see the guy and yet he shot you, but how the hell does he make himself invisible?

I keep imagining some guy humping the wall or some shit like that.

I haven't watched the video but if it's what I think it is, it is a glitch where you can basically not even come out and glitch the corner so you can shoot through it, recently people have being doing it excessively, tomwu aka TWLDemo, G1D and a few others.

This.

He's doing it in a way where he hardly comes out (and for like half a second) instead of fully invisible. Normally of course you'll see the whole players body 99% of the time when he's doing

---

normal hugging.

In the past two months a bunch of glitch abusing players have been doing or pushing it to the limit, even after he warned multiple times or even getting banned before.

Invisi hugging is a type of a hug where you come out really fast on your screen, but on other people's screen, they don't see you come out because of Renegade's bad netcode.

I actually responded to the latest one regarding his ban in Jelly but the topic seems to have disappeared.

Apparently [HoH]StealthEmitters (Mikey) is still a tad bitter over being banned at Jelly as well.

I think it's funny that I know of two moderators at TmX that are for certain past cheaters: Azazel's "oh I was sitting at my computer watching the screen" afk triggerbot fraps, and Mikey's stealth emitters picked up by the 3.4 scripts MAPCH

pretty cool
