Hey Guys

Been a while since I skinned anything but here...

I'm skinning all of the Nod Vehicles so they have the grey white camouflage like they did in the original C&C.

Tell me what you think.

not bad, but i think you could make a better use of the selection tool on PS and perhaps work a bit more with the camo texture so it looks more detailed, so far it looks kinda bland.

The camo is too bright, urban camo is darker.

Thanks for the honest feedback guys. I've used 1 new camo.

I Also did the Stealth Tank aswell...

The new ones are available for download here.

Note the Stank has 2 skins for it.

I don't know what you changed, but those look much better in my opinion.

They look better, maybe add more blueish tones?
