C&C\_Tib\_field:

This is a flying map with inf and veh entrances as well as custom small defenses.

The field is well populated with assets such as buildings and trees and other things.

The Nod base has a gdi weapons factory complete with nod textures and logo. The Nod weapons factory has it's own sounds that I created by modifying existing renegade sounds, also, the interior of the WF was lightmapped by Mauler.

You can view a demo of Maulers lightmapped interior here...

You can download the map here...

Some screenshots:

The files below were removed with permission from Taz's C&C\_Grand\_Canyon.mix, credit for these textures go to him.

Note: I modified the first four textures and renamed them by adding junk at the end of the name.

Also Note: That the buildings(the ones that you can not enter) on the field were downloaded as free assets from the internet.

Very splendid, i love it man, great work.  
It is on our server in rotation now  
I also made a information page which needs a little updating though txt-wise:

Looks pretty sweet, only thing that bothers me is that splotchy green texture (the one that is getting tiled on those hills in the background on the bottom picture).

As the person who made that tiberium texture, credit does not necessarily all go to Taz

(I am the MJF in mjf\_grass, mjf\_tiberium, and mjf\_dirt)
