Introduction

Hello everyone i would like to announce that we are going to hold a new gaming event for Tiberium Crystal War.

Most, if not all, of our Developers and Testers will be available during this event so you can ask questions and or make comments about the current version 1.52 and the upcoming version 2.0 which is under construction.

Newcomers

If you are a newcomer to Tiberium Crystal War or never heared of it, go watch our video trailer first on homepage.

Tiberium Crystal War is a full standalone conversion of the Renegade W3D Engine, you do not need Renegade to play it and you can run it aside Renegade just fine.

It consists of structures, vehicles, units, sounds and many other assets from the game C&C 3: Tiberium Wars which were worked up by our Developers to work with Renegade.

There are 15+ maps and a few different game-modes such as the classic All Out War,

Deathmatch, Co-Op and Domination.

If you want you can look at our Official Manual.

Where
