I was fooling around with the scripts (something i never do), and I decided to play with the "GTH_Drop On Death" Script. Long story short, You kill a nun, god will drop a pickup truck on you.
.

I found this hileriouis because I haven't gotten sleep in hours....

I made a test map for the custom scripts DLL, it contains 23 custom scripts to test if they were working. Some of them were quite fun, especially the ones that were faulty. There was one called JFW_Hunt_Blow_Up which is suppost to hunt you down and blow up when it gets in range of you. As it wasn't working properly when you walked withing about 50 metres of it the vehicle just exploded. Also a working one was a seden that turns into an apache when you kiill it. You can do some good things with scripts.
