I am looking for someone with Windows 8.1 who is:
1.Currently running Renegade and the official release of scripts 4.0 patch 1 (rather than some earlier scripts build or the testing build of scripts 4.1)
2.Can be on n00bstories IRC or on MSN/ICQ/Yahoo/AIM
and 3.Is willing to run some tests for me.

If you can help, get in contact with me. If you cant get hold of me, that may mean I am busy doing stuff so just keep trying

I have 8.1 But I don't have Renegade installed, just the BHP games.

I don't know what he was trying to test, but I presume he figured it out already.
