UltraAOW Speed Weekend
In the Speed Weekend every unit you buy will run 5 times faster than normal, your spawn soldier, your engineer, even your Havoc
Vehicles are not affected by this setting and all other settings are standard UltraAOW Settings as described on the website.

When?
The Weekend of Friday the 10th of January till Monday morning the 13th of January.

TT 4.0 Update is Required
The Tiberian Technologies Update 4.0 for Renegade is required to play on the server.
You can download it on their official website if you do not already have it.
It adds lots of extra's, anti-cheat and an ingame automatic map-downloader, awesome stuff!

Active Server Plugins
Of course the server will run our own mpf_newmaps.dll plugin which adds additional functionality to the server such as Veterancy and Special Crates & Power-ups.
For a full list of modifications and adjustments please visit our Website. (changelog)

We hope to see you all there, and enjoy!

Unban-Spree @ MPF
Since we finally got around to enabling the Anti-Cheat we decided to review our banlist.
A couple of hardcore offenders remain on our banlist forever-and-ever, they either break rules all the time and/or have a high level of insulting comments to MPF;
We feel we don't need those players in the server anymore at all.
To everyone else: Happy New Year and those that were banned are now unbanned.

Information & Rules
For a complete list of our server rules please visit this link.
Some advantage skins are not allowed on our server and we might ban you for using them, make sure you don't use them.
For a complete list of our Staff please review this website page.

Thanks
Thanks for choosing our server to play on and please do not cheat (anymore) and above all have fun of course.

Greetz the MPF Staff

Too Funny Liquid. In the end no one wanted to be around him. Just like A54. Paddy was sick and gone, can't blame him.

!ban Wyld's_Family

Since you posted that, I had to put closure on it. lol

Quote:Soz,

as expected and due to the lack of interest of the so called regulars,the server will be closed on the 20. January 2013. This means this Forums will go offline also,for the Teamspeak i will find another hoster.

In the end i would like to say im really disappointed bout all the PPI who first loud mouthed announced they will support this Community and then disappeared 1 after another. More funny is the fact that those are now beeing regulars at other Servers.

In the end, once again it shows, build on the support of others and you are lost.

Thx to those who were still around till the end.

Finally the AC has been switched on.

Your guys worked so hard to get models/certain skins allowed on the test server...I'm surprised it went so smoothly and fast.

The speed weekend is going to be interesting... lol
