UltraAOW Stealth Weekend

In the Stealth Weekend every unit you buy will be stealthed, your spawn soldier, your engineer, even your Havoc

All vehicles and turrets also will start with Stealth Enabled! This will be interesting days again just like last time i think lol

All other settings are standard UltraAOW Settings as described on the website.

When?

The Weekend of Friday the 11th of July till Monday morning the 14th of July.

TT 4.1 Update is Required

The Tiberian Technologies Update 4.1 for Renegade is required to play on the server.

You can download it on their official website if you do not already have it.

It adds lots of extra's, anti-cheat and a ingame automatic map-downloader, awesome stuff!

Active Server Plugins

Of course the server will run our own mpf_newmaps.dll plugin which adds additional functionality to the server such as Veterancy and Special Crates & Power-ups.

The server has been upgraded to run Dragonade which adds a dozen new features such as !drop to drop a weapon, headshot notifications and much more. Thanks Whitedragon!

Mappack is Available

You could download our Mappack before joining the server. This ensures you have all the maps already.

Then you will not experience any ingame download dialogs which may take long if you have a slow(er) connection.

All you do is click Next, Next, wait for it to install the maps and then you're done and ready to join.

Thanks

Thanks people for reading this and maybe joining up this upcoming Friday.

Please feel free to spread this news around a bit to attract more people and let's see if we can have some fun the Weekend it lasts.
