Is there someone out there who is good at writing PR and announcement type posts and info (of the sort seen in this post <http://www.renegadeforums.com/index.php?t=msg&th=40646&start=0&> ) and who knows some things about scripts? Someone who can help me produce a PR/release post for Scripts 4.2?

The final release of 4.2 is ready to go, finding someone who can do a release post for me (since my PR and writing skills suck) is the last thing I need before we can release.

I can do it if you want, I have many of the changes already listed thanks to my internal access. Plus I work with these scripts on a daily basis.

Looks like GeneralCamo doesn't have the time to do this (for personal reasons he said) so I need someone else who can do this PR. Its the only thing stopping me from releasing the final release of scripts 4.2.

I need someone who can take the list of changes from 4.1 to 4.2 as well as the various bits and pieces I posted in the test build threads and turn it into a proper list of all the changes made between 4.1 and 4.2 that Renegade players (and modders) are going to care about. Someone who knows stuff about how scripts works.

I can provide the scripts changelog from 4.1 to 4.2 and I can answer questions about what certain changes do if the changelog info isn't clear enough but I cant write the actual PR, someone else will have to do that.

Ok so GeneralCamo was able to help after all.  
Will be releasing 4.2 in the next day or so
