<https://multiplayerforums.com/topic/6310-no-delta-server-for-mpf-denied-listing/>

<https://secure.w3dhub.com/forum/index.php?showtopic=415701>

I asked nice and polite to have our server added to their list.  
The simple answer was 'no.' (direct quote).

They think there are not enough players to split over more than just their official server.

Oh well, it is their loss. We have a surprise coming up soon.

Have a nice day

people actually play APB? weird

I played like two rounds of it in 2007 and it was one of the lamest Renegade-like experiences I've ever had, and it went straight to the recycle bin afterwards

Yeah, people still play it. to be honest it's gotten a bit more traffic since it got a facelift and balance

fix. Also it moved out of BHP (which currently hosts no Renegade mods anymore) and moved to W3D Hub.

It's worth another go imo.

AHHH so sweet of you to remember me. I must have touched your heart in just the right way.

Could you refresh my memory again as to why you were mad at me? Was it because of the old ACK feud? (that's long since been resolved) that had nothing to do with you, but you still decided to get involved. Or was it because you didn't like the Avengers movie?

Well how did you feel about Deadpool?

P.S also it's cute to see Zunnie crying across the Internet again.

It's just a shame you guys did not accept the server on the list without wanting to influence what it runs, how it runs and who are moderators on it.

You guys just don't like fair competition and want all players on your server. Enjoy that for now.

I still enjoy watching how you just ignore any part of the PM that was linked around some forums that doesn't favour and even breaks your argument completely.

Also, if you are referring to a slightly altered Gamma or Nuclear Winter a "Surprise" then I bet it's going to be simply explosive!

Just try and not try to claim the game as your work, as you have done with so many of EA's and other people's assets, thanks.

Yeah its a shame we won't get to team up with the short bus known as MPF. I would love more than anything to have our games associated with content thieves,Tanya rape screams, and C&C 3 aircraft carriers on every map. OH and lets not forget copy/paste palm tress everywhere. Quality work Zunnie

Also I'm fairly sure your surprise will be hosting a coop server of your own (that only MPF groupies will play on), with one of our games and passing it off like it's your own work.

Well how did you feel about Deadpool?

I was never mad at you, and I've never even spoken to or really conversed with you  
you should go back and read your posts from years back and I think you'll come to the same conclusion I did - I made similar assessments for trooprm02 and DJ-EYE-K

I don't know what the point of the newest Avengers movie was other than to bring in new characters, but it was a letdown for me (not that I didn't like the movie, but I liked it less than I thought I would)

Deadpool was fucking great but I think they outdid themselves and any attempts at a sequel will fall short because of how stellar the first movie was

doing great, buddy! Gonna plan to play some Renegade this weekend after many months.

I wish I am that rich but if I do have that I would give it to you rightaway! I sent a message to that \$3000 dick monkey last year. It's been half a year and he's still not getting any offers. He did tell me he will let go all 3 for \$1000. If that helps. Still high and I would buy a rifle with that money instead as Hillary the gun grabber is gonna ban 2nd Amendment.

He will never get those sold. The \$2500 dick monkey is just copying the prices.

This happens all the time in the collector world:

One greedy douche completely spoils the market in the pricing war. Other sellers copy this inflated price. The result is the market for those collectibles stagnates, the items never move, and honest sellers with realistic prices would hesitate to list their items.

the only way forward is to dismantle the idiotic democratic form of government and erect  
monarchies for every race and nation.

Also, while being sensitive, make it gradually possible for all peoples to return back to their  
ancestral homelands.

With kings in charge, there will be generational stability and the commoners/serfs/"the  
people!"/self-important dumbshits can stay the FUCK out of politics and focus more on raising  
families and on working their day jobs without pissing their worthless uneducated opinions into the  
realms of true power; power which will only belong to the king and NO ONE ELSE.

The idea of voting will also gradually recede from the memory of all men.

it's too late for people and ourselves included to even want to acknowledge a distinct ruler and give up voting. We have been conditioned to see democracy as the best form of government and reject all others as authoritarian.

Here's the funny thing though; people rallying after certain popular "candidates" in the democracies of 2016 is exactly the same as ancient people rallying to see their kings crowned. The Leader Principle shows itself everytime: an incapable mass of people want a strongman to fix all their problems, put a chicken on every plate, and tuck em' to bed at night, and guard the gates. Might as well vote for the very last time, remove term limits, and go party at the beach. The king takes care of all the "important stuff."

eh?

what's the MPF server details? I am trying to connect but it's not working.

Using this taken from their website:

Server IP: 216.144.247.254:1337

[http://ren.multiplayerforums.com/server\\_information.php](http://ren.multiplayerforums.com/server_information.php)

Help! I wanna drive the Hover MLRS!!!

Thanks Jerard and PGS-PC!

That screenshot is the bomb! I have breathed new life into the Imperial server lol.
