Oh, just something I found funny because of Joe's stance with Reborn and that release of Reborn. Nothing really much to it.

You can blame my boredom, lack of anything to do, and my humor for the bump.

Anyways, let me be the first to say this in this thread: Reborn Sucks.

Error 404: File Not Found!

The document that you requested was not found. Either the page you're trying to reach has been moved or deleted, or you have typed in or clicked on an incorrect address.

If you came here by following a link on Planet Command & Conquer, please e-mail feedback@planetcnc.com with the the URL (i.e. address) of the page you came here from as well as the URL of the link that you clicked on (which should currently be displayed in the address bar at the top).

If you were looking for

crap to late.

Well, since the beta is going out does that mean Reborn is finnaly about to come out "?

As I stated in my bump post, this is just merely a bump of an OLD thread because I found humor in bigejoe being excited for the release knowing his current position on that release and Reborn itself.
