Well, i've had renegade for a little while now and really like it. problem is that my internet connection is very slow, but i want to play C&C mode. is there a way to put in bots to play against, so you can play multiplayer alone???

Yes, but they are custom maps. Dante is one of the main makers of them, and Garth has made AI versions of his maps.

Only link I have off the top of my head is <http://www.planetcnc.com/ammo> so I hope that's not too bad for you (the site isn't bad but the DL links are on FilePlanet).
