I'll have to make sure to join for one of the other renegade days, I'd love to see it hit 80+ like the good ol days.

I have Renegade re-installed now!

Do I have to download Reborn, APB, and Dune seperately? Or is the server modded for them?

Will see you all for the Renegade game night this Saturday!

Great to have you back! The w3dhub launcher allows to install the reborn, apb,... Mods. But tbh just tick with the original :biggrin:

Likewise!

Just wanted to try Reborn and APB as I am tempted by the flying vehicles! Orca fighter and Hind gunship :)

But yes, nothing replaces the original.

@Unstoppable: thank you for putting all this together!
