Yeah vehicles can stay up with one wheel only. I've seen it happen with APCs and MAs
also...pretty funny though

I think it only blows up if it has no wheels touching the ground for a certain amount of time........
I like that skin

i made a map summat like that, i know who made that map 2. there are big ramps, put low grav and and u get loads of air on em. its not when wheels arent of the ground, its when they are rotated 90 degrees or over for too long, btw, how do u take that off? i want it off in my new mod.

if you insist on changing skins and playing mods, then of course you will see bugs and glitches. I play the game still right out of the box. No skins, no tampering of any kind.
