hey the model spammer here....

i have uploaded another 6 models at ModX
<http://modx.renevo.com/forumdisplay.php?s=&forumid=7>

tell me what you think of my work currently....

Have any of those models in .w3d or .gmax? I just started looking at your models, and they are pretty good. I could make a good city map using your things.

you can import them into Gmax...

File>Import>and from the dropdown box pick .3ds>then pick the model

thats it...

EDIT

maybe i should update my info.txt and put instructions on how to import it into Gmax?
