hey can i be given the Alias "Model Spammer" or something related?

hehe, dunno why i just feel modely spamtastic today

maybe i will take out my desire on another model uploading spree!!!

/me runs off to ModX

There sure is a lot of your models there. Some of the vehicles would work great if somene coul't skin and bone them. I could probably figure out the boning bit but UWV unwrap just confuses me as soon as I look at it. Great work, keep the models coming
