I thought that the place needed a topic like this.

My idea. We collect all the IP's of the n00bs. And then we round them up and march them into a giant meat grinder and feed them to 3rd world countries.

Why am I making this topic? Because for the 5th time in a row playing renegade someone has decided the best thing in the world to do would be to take all the proximity mines and throw them up against their humvee and to hell with their base. They have "Bomb trucks" To drive!

Things that would make this forum more n00b-proof: Ban FCdrazen if he comes here and starts acting like "Normal"

Hummer bombing is fun as long as you use it to protect your base from damn stealth tanks and stealth infantry.

Ban n00bs is good and as for killing them well thats quite easy a couple of shots the head with a pistol can take them out easy enough but if you prefer just one clean shot with a sniper rifle...

The reality is n00bs will always beea probelm and you have to deal with them anyway possible.

A couple of shots to the head with a pistol should be enough to kill them? Remember, they were talking about killing them in real life (and feading them to *istan or some other 3rd world country). Unless they have a bullet proof vest wrapped around their head it would take 1 bullet just like any other gun...

If your taking Ip's and tracing them, why not just pull a Jay & Silent Bob on them?
You know, show up at their door with a huge ass log, and then just start kicking their ass.

But blacklising isint working too well anymore.

The sheer number of them is getting to big, and the lists too long to remember or hunt through.
Not to mention they are getting smart, and changing names.

I think the best way to get raid of the noobs is to spary some noobaway on them, or you can be nice to them and ask how they're doing when they're noobing around, you can buy extra tanks for them to steal, or stand still and turn on FF so they have no problem shooting you in the head, the little things to do to make the noobs feel more comfortable

this is fcdrazen, your SUPERMVP[/quote]

Acting like a n00b to get rid of a n00b wouldn't be a good idea. It would give others the impression that you are a n00b. And you don't want that, do you?
