Quote:SMIFFGIG: Finding Hi-Res icons for Tiberian Sun is very! hard and i am having to use all means necessary but it will look class when its done I even took that Tiberium Refinary one and restored it with the help of someone at sleipnirs forums.

The thing is there is some absolutely VITAL icons on the back of the Tiberian Sun box and thanks SeaMan as he did manage to find me one that had been scanned in that was on the net but it was just too small and bad quality (which he knew anyway).

So anyone visiting these forums if you can get me a REALLY good scan of the back of the Tiberian Sun box i would be well more the grateful for it you would get credit in my mod too (TS Retro).

I got the Tiberian Sun: Platinum Edition box (got TS as soon as it came out!), so I could scan that in, but I'm not sure if that's what you want...

Oh yeah... Forgot...

I'll scan in the box tonight and send it to you...

Just the back side?

Ok, I just got it scanned, it's zipped and I'll e-mail it...

It's around 800x1000

(The box was like a 1/4 of an inch both directions too large to fit entirely inside of the scanner.)
