I guess, any vehicle can be read by commando as a walkthrough. But, it does have its drawbacks, such as being controled like an infantry instead of the vehicle. Oh, and theres also this slight draw back...

It's funny, because you can move around with amost any vehicle, but the bones and emitters are all fucked up, if your feeling down, retarded, or any other bad thing, just look at these retarded "vehicles" and it will cheer you right up :rolleyes: . I think it crashed when I tryed a cinematic. Anyhow, now you know what I do when I;m bored, tired, and out of ideas.
