Genocide, regardless of whether you have human emotions or not, other people do fucking care that you faked your death to get people to feel sorry for you.

I'm also happy that your Warpath mod decided to start a site that ripped off the n00bstories.com layout.

No real surprise there, considering you ripped off the MoH textures.

Yeah, that's so not you... With the Warpath link that just appeared on the layout today. :rolleyes:
