that is crap when someone joins a server they want to play the game

not put up with that crap

Some morons just like to piss people off, i can only recommend you join a good server, one thats moniterd and dont put up with moron kids like that, best bet are joining the Server The-Pits, any DomSrv and most games with [BR.net] in the game description, as these servers are either monitered by scripts that pick up words and act on them, or are monitered by a mod team.

thanks

it just pisses me off when i play my favorite game and the idiots come in and wreck everything
