As you may or may not know Nodnl.net has now been moved to <http://www.Renhelp.info> and I now run the site thanks to iScripters. It will still have the same content and I will be adding mor tutorials very soon. If you have a tutorial contact me at generalhavoc@nodnl.net and I will add them to the site. I will also be optimising a lot of the tutorials to make them load faster and I may add a download feature for you people who are an dialup or want a copy on your harddrive.
Happy Modding

_General Havoc

hey if ya want you can use my layout that i created.

it was going to be for my own tutorials site, but i scrapped it due to some friendly advice

umm, i was staeting to code it all in PHP and creating a automatic submission system for registered users, but as i scrapped it the user system is unfinished.

well if ya want the layout, here is the page, just go to File->Save As.

i didn't get around to fully optimizing the images, so it may take a while for the images to load.

well heres the link:
<http://www.pointless-things.co.uk/ren-tut/>

Just click around to see how it was going to work.

well tell me if ya want it or not.
