I registerd a long time ago for n00bstories.com and i want to use it, it sais I have to activate it. So I click the update button and the text sais it will send another activation mail to my e-mail but it doesn't arrive. I checked my junkmail folder, sended it to different e-mail boxes I have but I don't recieve the activation mail. Anyone here from n00bstories.com that can help me?

Sendmail is used on forums to email people automatically. This may be the problem

****edit****

In otherwords, to email people the activation link for their account
