Snipe tips:for n00bs as in New people... Vs n00bs

most newbs or n00bs have tunnel vision they see one person they want to shoot and they take a couple pot shots at the person and pray to hit them. I suggest that as a n00b you should work in teams against 1 n00b.

1. gang up on him
2. split up and try to get behind him.
3. if you want a quick and dirty take down one shot from you one shot from you partner. (body shots)
4. WATCH! for his/her friends.

If you follow these simple rules you will be able to take down each other in a n00b vs n00b game. I will post more advanced strategies later. they will be in the strategy section. This is just a test run please tell me if they work for you because it works for me.

(P.S. I'm Back)
