Some questions...

- 1) Is that mini gun functional ? If so in what capacity ?
- 2) Does it fire the stealth type/mammy alt rockets ?
- 3) Where did u get that sweet ass hud !?!?!
- 4) Is the poly count off the chart ? I have a slower pc (850mhz) is this going to kill my game ?

Thanks !

1) No, so far rail guns and rockets only  
2) More of the mammoth type, but i think they are going to be altered a little.  
3) Well I think thats DarkOmen's personal work though you might find a similar one in the hud skins at <http://www.cncammo.com>  
4) No idea.

"Man that soldier looks awesome!"

Thats the jumpjet infantry for you, always thought they were cool as well.
