The Mod will be just single player but somebody else will be on NOD so for example your walking around in normal single player when all of a sudden your friend comes along and HES ON Nod

ok after finding out that it can be done i am now looking for members

members must be able to set up scripts.

You should make it co-player, so u can play together, instead of against each other.

Yeah it is, just set up all the single player AI units on the mutant team. Then Nod and GDI can play co-op together.

ok its not Co-op and its to "MUCH" unlike single player eg spawning in wrong place not playing as havoc etc... mine is going to be "COMPLETELY LIKE SINGLE PLAYER"
