I'm really getting sick of this, almost every time I play renegade and I have a lot of money, !!!!!!!!!!!!THE GAME CRASHES!!!!!!!!!!!! WTF, that's REALLY annoying cuz most of the time the same server is full when I try to rejoin, it doesn't say anything like "arraywhatever failed" it just goes to my desktop (once I had a bleu screen and had to reset) I don't know if it's my videocard cuz in every game I get weird lines and white flashing pixels so it could also be my videocard
