- 1.Look at what you want to take a screen of press the "print scrn" button(witch is next to f12)
 - 2.open your westwood/renegade folder and you should find a the screen shot you took.
 - 3.open it with a image editor(I use adobe 6.0) and edit it to your liking.
-

the names of screen shots are as follows

ScreenShot01.tga

ScreenShot02.tga

ScreenShot...

I thought that might be useful for you, if you don't have a file that lets you see tga? Then you are plum out of luck, less you download something or another...
