I'm gettin annoyed that none of the ladders arn't working. What makes it even worse is that EA hasn't posted anything about it on the Renegade news page. I think that is a pretty important piece of news to be leaving out. Instead they just give links to generals sites and such. I wish EA would tell us something about how long their ladders arn't going to work.

good and i hope hey stay down

we can now make our own ladder sytems for our servers or even use sumones...like BR.net has a ladder on it

the main WOL ladder created pointwhores and ruined the teamplay  
i wounder how long untill they find out they aint getting there pointwhored ranks

Gr8BiGGiEerm..when i try br.net i get argentina.com

LOL!!

We mean BlazeRegulator .NET (an actual program name, not the domain dummy!)

BR has a built-in ladder system..
