I can't believe I still get away with the Harvy sneek! mostly in maps City Flying Mix, Under and Field. Here is a clue how to stop us that do the sneek in CFM and make the game last longer. Advanced Engineers don't mine at end of wall by Power Plant, you must mine 3 pillars up. At the 3rd join or crack, mine from there up harvy path. Stealth guys can disengage from the harvy at the 3rd pillar, then have their choice of either walking to Barracks and taking that out or taking a few hits by going for Power Plant. If you mine at end of wall by PP all we do (stealth guys) is walk around them!

Of course stealth guys can stay next to harvy and continue walking to Refinery or Weapons too, hopefully without being seen. More risky but hey if you make it.....Boooooom!

Oh by-the-way I have (and experienced others) 4 other ways of sneaking onto GDI base, a little harder but workable! So I don't mind exposing one of them.

If I am GDI believe me your not going to Harvy sneek if I can help it!

Sorry trade secret on where to plant nukes.

Rippin'

Sneaking on under is tricky. The AGT always seems to spot me no matter what.

Oh man. Have you tried to get under AGT with a chemical trooper + nuke on Hourglass?? That works almost every time!

Too bad, not work for me. Lag always made me die before I ever step somewhere near that tower. :rolleyes:

The problem is, I don't have enough time to make it to the 1st as my Loxinfo internet has just drained out and I'm too busy with my work. But I'm ready for a challenge with you. I don't have my favourite server actually, but I can host us a game! Anyway if you don't know, I think we first met in a server which plays at Under, and I think I shot you down several times. Your tank, not you. Anyway that's the past. By the way what clan are you in? Th-W-H holds GDI forces authority in Thailand!

Back on topic...

New quote: Lag is the Weapon of Mass Destruction!

I rarely made it with this tactic. Either the base defense will shot me or an enemy will come round to visit.
