Warpath has created previous models and have placed the skins on them, now we are remodelling alot of stuff we have lost Sparxxx who used todo all the Unwrapping work (has left Renegade Community) and now warpath would like to ask for someone that could place our old skins onto the new models. (using Unwrap UVW).

Animator -

As you have seen before of animations on destroyed buildings we need someone that CAN do that, plus if this person can create cutscenes like Dante has previously created.

General Designer -

The general designer will design things such as map concepts, soldiers,tanks and anything that needs to be designed.

LOL you'd think with all that mysterious funding you were talking about, that you'd be able to hire someone to do it for you.
