Hey guys, i have been hard at work as usual, now i need to pick on 1 outta the two i created to use for my latest program??

I like them both in their own ways, one is very detailed while the other one is simplistic.

Please tell me which you preffer, also i can't tell you what program im making due to my companys policy so please don't ask.

GUI #1

<http://www.n00bstories.com/image.view.php?id=1079341373>

GUI #2

<http://www.n00bstories.com/image.view.php?id=1029409209>

NOTE: I do not give ANYONE any permission to use/redistribute any of the images and/or edit them and pass them off as your own, if either me or my company find out that you have used these illegally expect a heavy ass lawsuit on your shoulders, and trust me, my company doesn't go easy on theifs

If the program is for corporate use, I believe the second GUI #2 would suit it best. It looks more professional. If professionalism doesn't need to apply... GUI #1 is the better of the two.

majikentIf the program is for corporate use, I believe the second GUI #2 would suit it best. It looks more professional. If professionalism doesn't need to apply... GUI #1 is the better of the two.

Corporate use

And i also think #2 is the better choice for the job, but need a few more opinions for me to feel confident on my choice

Thanks mate, for your words of wisdom

npsmith82First design, if this is for what i think it is.

Its not for that, thats my spare time job, this job is my Professional job

Actually, changed my mind.
No # 2 is the better one, no #1 just seems too much like a typical sci-fi mechanical thing.

First one looks awesome.

Second one is bland.

[View Forum Message](#) <> [Reply to Message](#)

Well I think the first one looks better, however since it's for corporate use, go with the second one.

I prefer the 1st one, the 2nd one looks like the side of a cow (lolz) so yeah, go with the first one. It looks good and even though i aint sure what it's for, it looks sleek, yet smart. That was a long winded way of saying 'thr 1st one'.

OT: The pic in ur siggy, is that two lesbians?!?

Lol, thats actually a picture i took while i was in germany at a club, i was the resident DJ there for about a month, and i tell you what, some German girls can do some crazy shit

Also thanks guys for all your suggestions, i have decided to go with the second one due to it suiting the look for the job more than the first.

Thanks all who responded

Also need peeps opinion on another program im releasing on Monday, its going to be going out to 140 pharmacys all over Australia so i want to know what you think of it so far, you don't need to know what it does or what its for.

The GUI is done but i haven't finished adding the last 2/3 buttons to it yet, so same as before about if you steal/edit it expect a heavy ass lawsuit on your shoulders from a large corporate company

Here is the GUI 80% completed prog:
<http://www.n00bstories.com/image.view.php?id=1291595012>

Tell me what you think of it please

Definately the first one.

Although they both look good I prefer the firsr.

Good work as always Madtone .

Sk8rRIMukDefinatly the first one.

Although they both look good I prefer the firsr.

Good work as always Madtone .

-Sk8rRIMuk

Ahh, ok thanks mate, really apreciate the comments and the praise

Also General Havoc, thanks also for your compliments on my work, the layout of RenEvo Epoch is complete, just workin' on the PHP backend

Will be done soon, better than you can imagine

Ok, well the number 2 template was picked in the end, and i finished it, added the parts needed, sliced it up, ported it into my program, and here it is in all its glory:

GUI

<http://www.n00bstories.com/image.view.php?id=1381073670>

Thanks guys for helping me make my mind up
