I have a strange error when I want to skin.
I use chilliskinner. and when I'm making a uvw map of the model. I get this error.
<http://home.planet.nl/~kuste389/error.jpg>

can someone please help me?

I've seen this before, or at least something close to this. But now can't recall what it was that caused it. If I remember it what fixed it or who had it, I'll get back to you.
