Now this was the first error i have ever got on n00bstories, and i have to admit, its preety strange
i know its only a server hiccup, but i just wanted to show ya, lol try and get this error!

That kind of error is really common with php.

Generally happens to a lot of websites when you simply refresh the page, and just blurts out all the tags into the page.

yeah i know php does that, it was the whole microsoft XP banner thing that freaked me out?
Seeing as its a Red Hat server???

lol, i doubt i will ever be able to do that again!
