tell them rudely or the names might be as fallows:  
adbeveations of the keys used like ctl\_01, alt\_05 ctlyalt\_02  
adbeveations of the words seid GDI\_pp\_underattack GDI\_ppundattack  
or something just go though the lists in XCC mixer and playem all till you find it youd have to ask some one who has made mods for the radio commands and stuff
