I don't think the stairs will work, add hidden ramps on it.  
anyways, the barracks looks nice.

Right now we need texture suggestions, please go ahead and give suggestions to improve textures, it doesnt matter what texture it is u think would look nice because our texture team can always produce new ones.

For the barracks: Make the texture of the roof wood, instead of that stripped texture. Replace the texture of the wooden parts of the beds with a wood texture that's smoothed/dodged/burned/etc.

(Make the barracks a little longer with some more beds/whatever in it, and why exactly is there a concrete wall inbetween each bed?)

change the interior "slab concrete" texture, to more of a "cinder block" texture
