Can anyone post me to the link for the DDS Plug-in?

I can't find it.

I want to edit some skins!

If you have no luck finding it there, download it below:

<http://developer.nvidia.com/>

then search for DXT

that is the "official" site for it.

The DDS thumbnail is also a handy thing from there. IT makes DDS files show a prievew in windows explorer which can be handy.
