I know they have the Reborn Mod which is way cool that is coming out real soon which has the Tiberian Sun Vehicles and characters, but I do hope they will come out with a Renegade2 or something like it

\*crossing fingers\*

Renegade Alert is basically the Renegade expansion... It's even in the form of an expansion... as for Renegade 2 It was said to have been cancelled but who knows. However, They did release some of the models from Renegade 2.
