Well, I like Nod for their infantry, but GDI for their vehicles. Overall I'd go with GDI, though.

Well, here's something for you. On a ladder match when I was on Nod, some Hotwire moron was repairing his tank beneath the waterfall in River. I was Raveshaw and took him out and stole his X66, then got it stuck near the barn, but wasted everything that crossed me.

Nod. You don't have to worry about SBHs when you snipe, Stealth units are GREAT for recon, fast-attack, taking out artillery, and Flame Rushes are simple, brutal, and FUN!
