He is still here because he TRIES to be good.

You all flamed him for asking a simple question. He wasnt vulgar or obscene in the least.

Infinintacctully i would like to know if its posibal cuz some times im playing and im a stealth black hand and i get sniped from some where when i know thay couldnt of seen me at that range there is no way to make every one see you invisable but most people ues a rambow skin or somethink like that to see the stealth units so they must be using that that is how you get sniped a lot
