I have a strange problem here. as you know, you can move objects around in renx (x,y,z). I can do that too, but I can't move x,y,z seperste. I mean, normaly you can move only z or x. I can't do that anymore. can someone help me?

Infinintsome times my transform gizmo disipers even when i have show transform gizmo on? i end up haveing to re install renx

Sounds funny now, you could have avoided reinstalling RenX by pressing X
