Pretty cool maps.

I was dissapointed when my buggy didnt fly through the air, after driving off a jump.

The jumping was cool, but the extras don't jump high.

Dear Ack,

You know it is possiable to alter the soldier preset which spawns from the spawner right? For Gdi
the preset is CNC_Gdi_minigunner_0(something like that, it starts with CNC.
the nod one is almost identical. just letting you know, its not a big deal. also Mars and snow are
lots of fun.

It's possible, but after working with Renegade Alert, you still spawned as the basic GDI soldier even when the spawner was changed.

Thus why I said it was a fault in Renegade.
