You download gmax by going here: http://www.discreet.com (under products->Gmax->downloads)

Than you download the Renx gamepack for Gmax by going here: ftp://ftp.westwood.com/pub/renegade/tools/ (RenegadeToolsInstaller2.exe)

You can also download the art and resource/buildings/etc. used in Renegade from that folder for your map(s) or whatever for Renegade.

You can download 'skins' for the purchase terminals, you don't need an editor to do that.

Are you talking about the extras?

If so, hit F8 in game, then type "extras" or "extras fnkqrrm". (Without quotes)
